## Dominican Republic: Your Next Academic Destination

Choosing where to study also means choosing where to grow, discover new cultures, build friendships, and broaden your worldview. The Dominican Republic seeks to open its doors to young people from around the world who are looking for a high-quality academic experience in a dynamic, welcoming environment full of opportunities. Our country offers diverse higher education options, universities committed to education and innovation, excellent international connectivity, and a rich culture that transforms the experience of studying here into something that extends far beyond the classroom.

“Dominican Republic: Academic Destination” represents our commitment to continuously strengthening quality, internationalization, and the conditions that enable more and more students to choose our country for a significant part of their academic and professional future. This catalog is an invitation to get to know our universities, discover their programs, and explore everything the Dominican Republic has to offer as a place to study, learn, and live a truly enriching experience.

¡We invite you to discover the Dominican Republic as your next academic destination!

Welcome.

**Rafael Santos Badía, M.A.**  
Minister of MESCYT

## The Dominican Republic *is an* **ACADEMIC DESTINATION**

This Catalog of Dominican Universities, under the slogan The Dominican Republic is an Academic Destination, is much more than a publication; it is a window open to the world and an invitation to discover that our country is recognized not only for its natural beauty, history, and culture, but also for the quality and diversity of its higher education system.

The country is home to universities that have shaped generations of professionals, leaders, and researchers committed to national and regional development. Through this joint effort, we now present to the global academic community that our classrooms are also spaces for internationalization, innovation, and excellence.

Within these pages, you will find the academic offerings of our universities, the main programs that connect them with the productive sector, as well as mobility, scholarship, and exchange opportunities that make our country an attractive destination for students from other sister nations.

Through this catalog, we invite students, academics, and international institutions to look toward the Dominican Republic as a strategic partner in higher education, and we encourage our universities to continue strengthening their global vision, innovative capacity, and commitment to excellence.

I would like to express special thanks to all participating universities, the technical teams that made this project possible, and the national and international institutions that support our vision of the country as a growing academic destination.

We invite you to explore this catalog and discover the opportunities our institutions offer to build a promising future while contributing to the sustainable development of our region and the world.

We aspire for every student who visits us to feel part of our community and to take with them not only a professional degree, but also unforgettable memories of their studies in the Dominican Republic.

**Paula Mercedes Disla Acosta, M. A.**  
Vice Minister of International Relations  
Ministry of Higher Education, Science  
and Technology, Dominican Republic

**Wady Ramirez, Ph.D.**  
President  
Dominican Association of Universities  
Dominican Republic

## Why Study in the DOMINICAN REPUBLIC?

Today, higher education has become increasingly internationalized, allowing students from around the world to pursue their studies in countries other than their own. Choosing the ideal academic destination involves considering key factors that ensure a satisfying educational experience, legal validity, and personal enrichment.

The Dominican Republic offers all these conditions. Studying here means gaining access to high-quality, diverse, and up-to-date academic programs whose degrees can be legalized and recognized for professional practice anywhere in the world.

However, this experience goes far beyond academics. Studying in our country also means discovering a place rich in history, culture, and human warmth. The Dominican Republic was the starting point of academic development in the Americas, and it was here, in 1538, that the first university of the New World was established. Since then, the country has developed a strong and modern higher education system regulated by the Ministry of Higher Education, Science and Technology (MESCyT), with active partnerships with international institutions.

The Dominican Republic  
*Awaits for you!*

# Steps and Requirements to Enroll in the Dominican Republic

If you are considering studying in the Dominican Republic, you have made an excellent decision! Our country not only offers high-level universities, but also a welcoming environment, a vibrant culture, and world-class beach tourism. In addition, the admission process for international students is simpler than you might think, as you will have the support of institutions at every step. Here is a summary of what you need:

**ADMISSION LETTER:** The first step is to be accepted by the university of your choice. Many universities will guide you through this process and provide detailed information.

**STUDENT VISA:** With your admission letter, you can apply for a student visa at the Dominican consulate in your country. Don't worry--universities usually guide you through the requirements!

**ACADEMIC DOCUMENTS:** Your high school diploma and transcripts must be apostilled and, in some cases, validated in the Dominican Republic. This is a common procedure, and universities can guide you on how to complete it.

**TEMPORARY RESIDENCE:** Once you are in the country, you must apply for a student residence permit with the Immigration Office. Many universities will support you by providing the necessary information and contacts.

**HEALTH INSURANCE:** It is important to have valid health insurance in the country, and some universities even offer options to help facilitate this process.

In the Dominican Republic, studying is much more than attending classes: it is living a unique experience.

**Take the first step and discover everything this destination has to offer you!**

**COME AND STUDY  
WHERE IT ALL BEGAN**

# AUTONOMOUS UNIVERSITY OF SANTO DOMINGO (UASD)

*The Autonomous University of Santo Domingo (UASD), founded in 1538 as the University of Santo Tomás de Aquino, is the first university in the Americas. It is a public and autonomous institution and forms part of the National System of State Higher Education. Its main campus, regional campuses, and centers are distributed throughout the country. It ensures academic excellence through a decentralized and regulated model, promoting comprehensive education and fulfilling its educational and social mission.*

# UNIVERSIDAD AUTÓNOMA DE SANTO DOMINGO

ACADEMIC INSTITUTION WITH THE GREATEST  
IMPACT ON DOMINICAN SOCIETY

## 1492 - ARRIVAL

**OF THE SPANIARDS ON THE ISLAND OF SANTO DOMINGO.** On December 5, 1492, the island now shared by Haiti and the Dominican Republic was discovered by Christopher Columbus during his first voyage to the American continent. Upon his arrival on the island, Columbus baptized it with the name "La Hispaniola".

## 1538 - FOUNDATION

**OF THE FIRST UNIVERSITY OF THE NEW WORLD.** The Universidad Santo Tomas de Aquino, which later became Universidad de Santo Domingo, was created by the Bull *In Apostolatus Culmine*, issued on October 28, 1538 by Pope Paul III. Santo Domingo became the seat of colonization and the oldest colonial establishment in the New World.

## 1965-RENEWAL

On September 25, 1965, the proclamation of the renewal movement that would transform the academy was made. A University Council was installed with statutory student representation. Since then, more than 1,035,825 high school graduates from low-income homes have graduated from the UASD.

## FIRST DEFENCE

**OF HUMAN RIGHTS.** Friar Antonio de Montesinos, who arrived in the first expedition of the Catholic monks of the Dominican order, and was professor of the University of Santo Tomas de Aquino, in a sermon reproached the ill-treatment and servitude to which the aboriginal people were subjected, thus giving the first demonstration of a doctrine for human rights in America.

## AUTONOMY

Law No. 5778 passed on December 31, 1961, provided the University with autonomy. From that moment on, it became the Universidad Autónoma de Santo Domingo (UASD). The UASD delivers to Dominican society approximately fifteen thousand professionals graduated from 102 undergraduate degrees and about 2,300 postgraduate degrees every year.

**UASD TODAY:** Today, the UASD has nine faculties and an enrollment of more than **165,000 undergraduate students**, and about **30,000 postgraduate students**, making it the largest public university in the Dominican Republic and one of the main institutions in the national higher education system. The university maintains academic freedom and a nationwide presence through four regional campuses, 18 university centers, and 13 sub-centers distributed across the country. The UASD is also recognized for offering unique academic programs in the Dominican Republic, including degrees in Statistics, Sociology, Customs Administration, Geography, Art History and Criticism, Chemistry, Anthropology, Foreign Trade, Zootechnics, and Biology.

Universidad Autónoma de Santo Domingo

PRIMADA DE AMÉRICA | Fundada el 28 de octubre de 1538

# PONTIFICAL CATHOLIC MOTHER AND TEACHER UNIVERSITY (PUCMM)

*We are a Catholic, non-state institution at the service of the community, established by the Dominican Episcopal Conference on September 9, 1962. We are a higher education institution that emphasizes academic excellence and is open to all people without distinction of race, social class, ideology, or religious beliefs. We focus on the scientific search for solutions that respond to social problems and the demands of the common good.*

# TECHNOLOGICAL INSTITUTE OF SANTO DOMINGO (INTEC)

*It is a private university with a public purpose, founded in 1972 by a group of professionals committed to transforming higher education in the Dominican Republic. It was established as a modern and open institution, with an innovative educational model based on trimester cycles and a strong orientation toward science, research, and academic excellence, with international recognition.*

*Throughout its history, it has educated generations of well-rounded professionals, consolidating its position as a national benchmark in innovation, social commitment, and sustainable development. At INTEC, each student is part of a community that inspires pride and a sense of belonging, as members of the country's leading university. In the hive, the well-being of students is prioritized, all people are respected, and an inclusive learning environment is guaranteed.*

*In our classrooms, highly competent professionals are educated who contribute to the sustainable development of the Dominican Republic, supported by the academic excellence and innovation that have characterized our institution since its foundation.*

*Its Medicine program was the first in the Dominican Republic to be accredited by the CAAM-HP agency, a body recognized by the World Federation for Medical Education, in 2018, and it was reaccredited in 2024.*

*It is also the first Dominican university with Electrical, Industrial, and Mechatronics Engineering programs accredited by EAC-ABET.*

*Its prestige has been supported by a four-star QS Stars rating and awards such as the Proindustria Academic Innovation Award and FUNDIBEQ's Gold recognition for its good practices aligned with the Sustainable Development Goals.*

*Its graduates are highly recognized in the labor market and maintain an employability rate of 96%, which demonstrates the relevance of their education.*

# DOMINICAN ADVENTIST UNIVERSITY (UNAD)

*The Dominican Adventist University has its origin in the Dominican Adventist College, founded in 1947, which operated until 1976 in the Herrera area of the National District. When the College's land was declared an industrial park by the State, the Adventist Church acquired the Bethel estate, located in Sonador, Piedra Blanca, Monseñor Nouel province, which is its current site of operation. The growth and development of UNAD have been possible thanks to the vision of the Adventist community, which holds that education and redemption aim to restore the image of God in humankind. For this reason, it seeks to meet the needs of the society it serves by educating professionals capable of contributing to the development of people and their environment.*

- Responsibility
- Service

### **PRINCIPLES**

- Respect for patriotic values
- Preservation of national identity
- Respect for the environment
- Respect for civil and collective rights
- Promotion of ethics
- Promotion of scientific, cultural, and artistic knowledge
- Promotion of innovation and the development of science and technology

# TECHNOLOGICAL INSTITUTE OF THE AMERICAS (ITLA)

*Our commitment to educational quality has been recognized at the national level, having been awarded the National Quality Award granted by the Ministry of Public Administration of the Dominican Republic. This prestigious award makes us the first academic institution to receive such recognition. At ITLA, we do not only educate you academically, but we also prepare you to be an agent of change in social and human development, using technology as a driver of transformation. Internationally accredited by ABET (Accreditation Board for Engineering and Technology), with SISMAP recognition for 3rd place in the quality management trajectory ranking.*

## TECHNICAL INSTITUTE OF HIGHER STUDIES IN ENVIRONMENT AND NATURAL RESOURCES (ITESMARENA)

*TESMARENA, founded on May 5, 1968, trains highly qualified professionals in environmental management and forestry sciences. Through field practice and real-world projects, students develop the skills needed to face today's environmental challenges. The educational modality is face-to-face, under a boarding school system. It has two campuses in a favorable environment, surrounded by coniferous and broadleaf forests, making it one of the most attractive educational options in the country.*

### ACADEMIC OFFERINGS

- Higher Technician in Environmental Management
- Higher Technician in Forestry Sciences

# INCE UNIVERSITY

*INCE University, sponsored by the INCE Foundation, was established on March 18, 1974, through Executive Decree No. 4518. Later, by Decree No. 415 of December 10 of that same year, the University became the seventh higher education institution in the Dominican Republic.*

*Within the framework of the widespread process of modernization and change that characterizes the current national context, professionals from various fields continue to join INCE University with the aim of strengthening the institution and positioning it as a leading participant in the educational and scientific development of the present century.*

*INCE University is committed to comprehensive human development, grounded in values and in the recognition of the characteristics that constitute national identity. To develop in future professionals the competencies, abilities, and skills necessary to perform successfully in a globalized and competitive world.*

*Its main purpose is to educate professionals through a humanistic philosophy that promotes ethical and moral values, using a constructivist educational paradigm. Through the development of competencies, skills, and abilities, graduates are prepared to plan and implement solutions that respond to the needs and demands of society. The University serves an intergenerational student population through both in-person and blended learning modalities, while research plays an essential role in the construction of scientific knowledge.*
